

## **REPORT ON A WORK SHOP ON CAREER COUNSELLING**

18TH JULY, 2019

After important milestones in education each one of us faces this question 'what after graduation. Career counseling can help in all the major milestones in one's career. Firstly, to decide a stream and subject combinations, to decide the graduation course, and then, to decide the post-graduation and career option! It is at this point that career counseling can help the child sail through these turbulent times. Career Counseling involves scientifically developed aptitude tests and personality tests that help a career counselor give the best suited career advice to the student based on his report of his aptitude and personality. Human capacities are infinite and can never be measured, nor are we to judge of what one can do. Every person has unique characteristics, for everyone has his or her own strengths and weaknesses. The key is to identify these unique qualities is through career counseling. The main aim of career counseling is to help students choose a field that is in tune with their skills and their job expectations.

Feeling the importance of career counseling Mathabhanga college organized a "one day work shop" on career counseling under the supervision of IQAC, Mathabhanga college. Teacher-in-charge Dr. Shyam Kr. Jha inaugurated the programme. He spread the light over the matter on which that workshop was taken. We learnt about the importance of career counseling from the words delivered by Smt. Aparna Biswas, Assistant Professor of Economics, Dr.Sulagna Dutta (TCS). Dr. Amit Kundu, coordinator of IQAC in his words mentioned that "each student is unique and has got some talent. So it is our liability to show the future opportunities regarding their jobs in front of our students and we are able to have a programme with the help of Rice Education" The workshop ended with valedictory address by the coordinator of the programme. The workshop on the whole was a great success and the students enjoyed a lot.

IQAC: Dr. Amit Kundu (Coordinator)
