

Report on the event of special lecture on Sustainable Development and Resource Conservation

Topic of the Special Lecture; Sustainable Development and Resource Conservation

Speaker; Prof.Sanjit Kumar Shil Sarma.

Assistant prof.of Geography,Mathabhanga College

Date; 8th May 2023

The Program in brief;

Mrs.Aparna Biswas, Associate Prof of Economics welcomed and Dr. Sanjit Kr.Shil Sarma to the department of economics and introduced him with the students. On behalf of students, he was welcomed with a bouquet of flower. Then prof. Aparna Biswas delivered a short speech explaining briefly the concept of sustainable development and the need of awareness about conservation of resources. Then she invited Dr. Shil Sarma to deliver his speech. With power point presentation he nicely explained the concept of sustainable development elaborately and also explained the origin of the concept and also evolution of the concept of development. He nicely explained the role of resource for sustainable development and tried to make the students aware of the need of conservation of resources. Though he focused on different factors that should be taken care of for sustainable development, he specially emphasised on resources conservation. At the end of the program Prof. Aparna Biswas expressed thanks and gratitude to Dr. Shil Sarma for delivering such a beautiful lecture. About 65 students were present.
